

Clients to benefit from independent global catastrophic risk management solutions

September 27, 2007: 10:00 AM EST

CHICAGO, Sept. 27 /PRNewswire-FirstCall/ -- Aon Corporation , the world's number one provider of insurance and reinsurance brokerage and global risk management services, and Arup, the global multidisciplinary engineering and consulting firm, today announced a strategic alliance that brings to the marketplace an unprecedented pre- and post-loss consulting service that offers clients an independent, global catastrophic risk management solution.

The alliance increases the depth and breadth of Aon's "Rapid Response," a loss mitigation and claims advocacy service borne out of Aon's experience following hurricanes Katrina, Rita, and Wilma in 2005. In addition, it enables the creation of a pre-loss service offering aimed at preparing clients for catastrophic events, to be called "Rapid Response Engineered."
